- Well-spoken
- Hardworking
- Computer Literate

CODING EXPERIENCE

- C#
- Python
- JavaScript
- HTML
- CSS
- Java
- SQL
- Kotlin
- Solidity
- MongoDB

MY BIO

Recently graduated a Bachelor of Computer and Information Sciences in Application Development degree with distinction, passionate about data, analytics, and building scalable systems. Strong foundation in databases, backend development, and programming, with growing interest in data engineering and transforming raw data into actionable insights.

Known for strong problem-solving abilities, attention to detail, and effective communication through experience in student recruitment and customer-facing roles. Eager to launch a career in a high-performance environment where I can contribute, learn quickly, and develop into a data engineering specialist.

WORK EXPERIENCE

- Varsity College / Emeris - Contactor** SEP 2025 - FEB 2026
Call Centre - Student Recruitment
 - Recruit and guide prospective students through the application and enrollment process.
 - Reach out to students to get them to come to our campus.
 - Support outreach activities, campus events, and onboarding initiatives
- Blockrora - Part-time** OCT 2025 - JAN 2026
Graduate Operations Assistant - Client Onboarding
 - Looked after the day-to-day onboarding and admin for new advertising clients and partners.
 - Acted as their main point of contact, working closely with both the clients and our internal creative teams to get campaigns launched smoothly and on time, whilst keeping our CRM and project trackers organised.
- Mosadie Gives Back NGO Website** MAR 2025 - NOV 2025
Full-Stack Developer (Work Integrated Learning)
 - Collaborated in an agile team to architect and deploy a responsive web application using Next.js/Vercel and Supabase.
 - Replaced an outdated legacy system with a modern solution to improve community outreach and information.
 - Managed version control and collaborative coding workflows through GitHub, ensuring consistent integration and deployment (CI/CD).
- Sportsmans Warehouse - Part-time** 2023 - 2025
Retail Assistant
 - Assisted customers and provided product guidance.
 - Managed basic in-store tasks including sales, stock handling, and maintaining store presentation.
 - Worked as cashier at front of store when required.
